Matt Brunner, 43, lost 14 pounds. • Focusing your weight-loss efforts on drinks will help you quickly strip away flab in a number of ways. Here's what makes Zero Belly Smoothies so effective: • 1. They take the stress out of cooking and eating well. Studies have shown that the more diverse your diet, the more likely you are to experience weight gain. In fact, those who ate the widest range of foods showed a 120 percent greater increase in waist circumference compared with those who had the least diversity. In other words, people who have the best success at weight loss pick a set number of foods and tend to stick to them. Zero Belly Smoothies allow you to do exactly that. • 2. They crowd out the junk in your diet. Zero Belly Smoothies come in all different flavors • chocolatey, fruity, green, and even savory • but they all have one thing in common: no added sugars. In a 2015 study in Sweden, researchers followed 42,400 men over the course of 12 years. They found that men who consumed at least two servings per day of sweetened beverages had a 23 percent higher risk of heart failure compared with those who did not. • 3. They battle food allergies and reduce inflammation. What's also unique about Zero Belly Smoothies is that they are vegan: no milk, no yogurt, no whey protein. Plant-based protein powders are a low-sugar, high-fiber alternative to popular dairy-based supplements. A study by the University of Tampa that compared plant protein with whey found it to be equally as effective at changing body composition

and boosting muscle recovery and growth! 4. They make you feel fuller longer! Studies show that high-protein smoothies are highly effective at rushing nutrients to your muscles and that blended fruit drinks, which include all the fiber, will actually keep you fuller longer than fruit juices.

I've never been one to have to worry about my weight. Five foot tall with an athletic build (with little effort), hovering around 100 lbs for forever years. Then menopause hit. Over the last few years, I gained 20 lbs, most of it in my trouble area - the belly. Or so, it seemed. 120 may not seem overweight to some, but as a small boned/framed, petite lady, it was like being pregnant two times over. A little over four months ago I started to get a grip on it. Never a fan of diets (in theory), I started working out five times a week. A few Leslie Sansone walking videos three times a week and yoga/stretching on alternating weekdays. Since I've never really had to worry about what I ate, I didn't really make any major changes in my diet. It took me two months to snap out of that denial. So, it took me four months to lose 10 lbs. I was feeling and looking better, but still wanting to get to my goal weight of 100, which is where I feel most comfortable physically. And my belly was still very much my trouble spot. I started losing momentum on the motivation train. After doing some research, I saw that the Zero Belly Smoothies was coming out in a week. David Zinczenko has been in the belly business for years, so of course, I'd heard of his passion and even though, I've never even had a smoothie, I liked the idea of no focused shopping and eating, AND the possibility of losing up to 16 pounds in 14 days. It worked. Still working out five times a week (nothing hardcore) and replacing breakfast and dinner with Zero Belly Smoothies - eating pretty much what I wanted,

yet sensibly, for lunch and on the weekends, I lost 10 lbs in 10 days, and my belly is as flat as its gonna get. The smoothies are quick, easy and delicious.
