## Customer Reviews

Really nice patterns that inspire numerous projects. I love the teapots patterns. If you have the teapots madness like I do, you'll enjoy this design. This book has folksy, whimsy, angelic, & flowery patterns that I would recommend to fellow cross stitch crafters and collectors.\*Note\*: The Kindle copy I got did not come with any charts. However, it has a link to which "All charted designs can be found at:." There was a slight problem with the page. So I contacted the customer service at the website. Their respond was quick and I was a satisfied customer within 36 hours.

Item as described.
