Customer Reviews

My wife and I love to eat in Thai restaurants, with Indian cuisine coming in a close second. But where we live in rural Southwest Missouri, the nearest such culinary oasis is almost 30 miles away, across the western border in Kansas... But with 10 Awesome Vegan Thai Curry Recipes in hand, we can easily create all our favorite dishes at home. I just wish it was 100 recipes instead of 10!

For any person with little knowledge of Thai cuisine this book simply set down for ease of delivery. My first attempt was very tasty and colourful, with compliments to the chef! Great on the digestion too. I have included this book as one of my favourites.

Easy and good. Kind of home style cooking and without a bunch of hard to find ingredients. For the

price it's worth it to have on your kindle or ipad. I am back to purchase another vegan cookbook by this author.

I was super disappointed by this book. It doesn't have any recipes to make your own curry paste. It just says add coconut milk and store bought curry paste with some veggies and cook it. I didn't need a cookbook to tell me that! I was hoping this would be authentic.

I recently went vegan and have been looking for tasty recipes. This book fits the bill. It only has 10 recipes, but, at \$.99, the price is right. I have already cooked several receipts from this book.

There are larger vegan Thai books out there that contain more recipes and aren't so basic. This might be a good start for someone exploring vegan or Thai cooking but there are more recipes out there with more variety.
