115 Productivity Apps To Maximize Your Time: Apps For iPhone, iPad, Android, Kindle Fire And PC/iOS Desktop Computers (Updated: October 2014)

Synopsis

LEARN:: How to Discover the Right Productivity Hacks and Tools for Managing Your Time Do you struggle with your personal or business productivity? Can't find the right app for your iPhone, Android or Kindle Fire device? Want to complete more tasks on a daily basis? All of these problems can be solved with the right productivity app. The challenge? The app marketplace suffers from information overload. Because there are so many tools out there, it's hard to know if a specific app is the right one for you. If you've ever scrolled through hundreds of listings, then you know that locating that perfect app is often like finding a needle in a haystack. **THE SOLUTION?** Read App Guides That Review Benefits, Not Features Most app review guides emphasize features, not the benefits. Often you'll get descriptions filled with techno-jargon that fail to describe (in simple language) how a specific app can help you. Instead, what most people need is a simple description of an app's benefits and how it can be used in a real-world setting. **GET: 115 Productivity Apps to Maximize Your Time -- Apps for iPhone, iPad, Android, Kindle Fire and PC/iOS Computers** In "115 Productivity Apps to Maximize Your Time," you'll get a straight-forward breakdown of the best productivity apps. Instead of getting a massive directory of links, you'll only learn about the apps that are loved by countless business professionals, time-management junkies and entrepreneurs from around the world. Think of it as your personal "Consumer Reports" on the tools that help you stay productive. Here's a list of what's included inside: Calendar Apps Collaboration Apps Focus Enhancer Apps Goal Setting Apps Mind-Mapping Apps Note Taking Apps Password Management Apps Social Media Management Apps Task Manager Apps Writing and Reading Apps General Productivity Apps There are lots of productivity tools in the marketplace. It doesn't matter if you have an Android, iPhone or Kindle Fire device. All mobile device users need a simple guide that can break down the productivity app marketplace without all the complex gobbledygook. **Would You Like To Know More?** Download today and find the time management apps that's right for you. Scroll to the top of the page and select the buy button.

Customer Reviews

A Consumer Report On the Loved Apps of Tech-Savvy Businessmen, Entrepreneurs and Productivity Gurus. Save yourself a ton of time with this great book by Steve Scott on the most productive apps available today. This innovative approach gives you the benefit of each app-not just the features, see how you can use each app in the real world to be more productive and stay focused. The author vetted each recommendation by sifting through hundreds of apps to give you the "Ultimate Equalizer for Time." These tools will help you stand out in real-world settings and help you become the most productive person in the room!The focus is on helping readers find the right resource for the right job by giving you what you need right now, such as "Specific apps for specific needs." You will find apps for iPhone, iPad, Android, Blackberry, Mac, Windows, Tablets, Web Browsers, Chrome, Firefox, Internet Explorer, Desktops, Kindle Fire, Nook, iOS, Desktop, and Mobile versions.I love the clickable Table of Contents. It makes navigation in the book very easy. You can go directly to an app quickly and links are given to take you right to the app website. Each app has a description, benefit, features, link, cost, and device. Many of the apps are either free or purchased at an affordable price.One of my favorite apps is the Google Chrome app #14 Stayfocused, benefits include setting a shut down time on specific websites so you can focus on your goals. I can see how this app will keep me on target. This app alone will pay for the cost of this book because my writing productivity will definitely increase.
