In reading it, I can just tell that the author is handsome. He also writes in a way that suggests to me that he is nice smelling and regularly calls his mother. I didn't think I'd ever find a book that I thought was more important than the Bible, but I did, and it is this book.- Not the author

The fact that there are "only" 75 recipes in this book is actually a huge bonus, as far as I'm concerned. The books with hundreds (or thousands) of recipes leave me overwhelmed and still wondering what the f*% I should drink. The little bits of profanity-filled "story" around each drink make it a pleasure to leaf through, and the drinks include quite a few I'd never heard of.

Purchased for birthday gift for friend. Thumbed through the book and it made me laugh. In addition to witty sarcasm and cussing the book offers interesting drink options that I would like to try. May have to order one for myself.

This book is very entertaining and has some fairly good drink ideas. Most of them are pretty standard, but it's the description of how to make them that makes this book great. It's a pretty good conversation piece and will get a lot of laughs out of people who pick it up.

Great gift for anyone who loves conjuring up drinks or pretending that they know their stuff. Great for indecisive pairs or groups to flip through (or is that only my friends?), we make it into a game. This book is great for the writing, while the recipes are you run of the mill restaurant cocktails. Pair with a nice shaker set for the perfect gift for your loved one or favorite drinking buddy.

Love LOVE this cocktail book. I love trying new cocktail recipes and this one is hilarious and has a bunch I haven't tried yet. Plus it definitely helps me figure out what I want that night. I took off one star because the item I received had a huge gash on the front cover like something sharp had dug into it,. Plus several of the pages were stuck together almost like with glue and I had to use a knife to separate them - though none of the recipes or pages were damaged

This book cracks me up! I'm already planning on getting as a gift for somebody who will love it as much as I do. The only thing I might like added is an index. Even without that though, I have thoroughly enjoyed this book.

I rarely touch hard liquor - not since my days of youthful indiscretion. But I have always wanted to know what some of those exotically-named drinks consist of, especially if I am expected to serve up one to a guest. This book made me laugh so hard I cried, and impulsively (after several glasses of wine), I ordered up a ton of Zach Golden's books to gift to friends and family. I felt very strongly all of them should have the guilty pleasure of a book they might never buy themselves; a conversation piece if nothing else. The dedication and forward are worth the price alone. I have a certain fondness for born and bred NYers, but as a word of caution, this book may not play in Peoria.
