Gerry Anderson Collectables

Synopsis

This book covers the whole range of collectables from the Gerry Anderson shows, from the 1960s to the present day. Ranging from Four Feather Falls (1959-60), Supercar (1961-62), Fireball X15 (1962) to the iconic Thunderbirds (mid 1960s) and Captain Scarlett, Rob Burman provides a detailed analysis of the numerous associated toys made by toy manufacturers around the globe, looking at the trends and identifying potential collectables for the future. Due to the ongoing interest in Gerry Anderson's creations, this book will not only appeal to those collectors who remember the shows of the 1960s but also to a new generation. Published in the 50th anniversary year of Thunderbirds, when a new series will be released, this book is the ideal source of information for Gerry Anderson fans of all generations.

Customer Reviews

I bought this book for a friend. It is a small trade-paperback-bound book. It really just features the artifacts in one author's collection. It is not a full and complete overview of all Gerry Anderson collectibles ever produced. Some of the collectibles featured are rare and obscure. The photos and images are good to average. This book would make a nice addition to other books on the subject but it is in no way the bible of Gerry Anderson collectibles books.

Very basic collection of collectables. It misses several Gerry Anderson shows, and their related memorabilia. Some facts about the collectables are incorrect. Not well researched.
