Customer Reviews

This book help me to start to appreciate the vegetarian because there are a lot of benefits if I start to eat vegetables. Before is quiet difficult to me eat Vegies but now I already appreciate some vegetables. Here in this book convinced me that through vegetarian diet can further on making healthy and super tasty recipes. The benefits i can gain If I will start to eat some vegetables are lifelong health, physical performance and overall wellness. I highly recommend this book!

I love reading this book, I learned a lot from it. History of this lifestyle is quite interesting. I knew some people who are in to vegetarianism and this book help me to understand why they choose this kind of lifestyle. I also learned that not only protecting animals is the only reason for this lifestyle but also to improve not only our health but together with our environment. There is also a meal plan included in this book for two months which is very helpful. Thank you to the author.

Vegetable is always good for health but I'm not vegetarian. I'm thinking about it and at least i will eat some vegetable everyday but i have no idea about vegetable that's why i got this beginner guide

from here. This book is a great source of vegetable and I found in this book a lot of vegetable recipes as a beginner I understood where to start. All instructions are very clear to me. Thanks for the great help.

This is a great vegetarian guide. I was searching for a good book on and I came across this book and I surely made a good choice. I have been helped step by step on how to go about this diet and the recipes at the end spices everything up. I am so sure of where to start and what to go for and how to prepare meals and what to eat and what to avoid as a vegetarian. I highly recommend the book

This book had use the step-wise approach to take us through the vegetarian diet and further beyond into the practical application of making a healthy and super tasty recipes. The vegetarian diet is continually gaining popularity for all the right reasons. The recipe in this book looks delicious which makes me excited to try one of those when my schedule is not busy.

How many? 170 recipes for just 99c? Oh, this fact doesn't give me rest. I tried vegetarianism when I going to school. Then it seemed madness and my parents were not delighted with my hobbies. Now I practice a vegan, but that doesn't mean that I don't eat meat. The book is very attracted. It's quite suitable for beginners and of course for experienced vegans who may find the recipes for their souls.

Honestly, veggies are not my cup of tea but then under my new diet they are a key player so I had to incorporate them in my meals. I have tried a few veg cookbooks and often they fail me because the meal is substandard. When I saw this book I was impressed by the reviews and I decided to get it. I have tried a few recipes and the meals are tasty

There is a great detail given to the recipes and there is a dietary information about Vegetarianism that is important even before beginning to enjoy the meals to know the reasons why it should be a routine to have vegetarian recipes in our daily meals. There are table for meal plan that can give the reader a great start.
