The Gospels Side-by-Side

Synopsis

The Bible gives us four biographers for Jesus' life: Matthew, Mark, Luke, and John. See Jesus from four different points of view and learn how their views unite and flesh out an awesome portrait of God. Consult this concise chart to find out why there are four Gospels instead of just one, why three Gospels are similar, but the fourth is very different, how the Gospels complement - not contradict - each other, why most of Christ's story focuses on his last week; and more.

This pamphlet lays out the four gospels and their events in an easy to understand format. The four gospels each tells Jesus's story from its own point of view. A story may be found in all of the gospels, while another story may only be found in just one of the gospels. The charts lay it all out for you. There is a chart for all the events, one for miracles, one for the parables, and another for all the places he visited. The chart works by listing the event and where it can be found in Matthew, Mark, Luke or John by scripture reference. The pamphlet has a section that also gives you an overview on the gospels themselves, what viewpoint they were written from, and who the audience was that the author was writing to. There is also a map of Israel during Jesus' time that depicts what cities existed at the time and which are still present today. This pamphlet is very visually engaging and would be very helpful to have handy in a Bible class or in your own personal study.

this pamphlet is very interesting,... it gives all the necessary details on the Gospels - to be sure, the

short version - including a short but detailed Harmony... the paper and printing quality is EXCELLENT ! thin and small enough to always accompany your Bible,... a fantastic short-companion to the Gospels, always at your fingertips,.. :-)helge enorway

This is a small quick reference guide on the four Gospels. A 6 small paged fold out. Most reference Bibles have these charts in them. I bought this because it was a quicker reference then going to the bible and searching the back pages for the charts or the table of contents for the pages for the charts. Good to stick in the front of your bible as a quick reference.

This book was well packaged and shipped within the specified dates. It wasn't exactly what I was looking for, however, it contains much info. about the gospels, that help broaden my personal outlook. I would recommend this book if you are interested in learning more about how the gospels are different and possibly why. I would buy from this seller again as they are dependable and accurate.

The Gospels Side-by-Side: Harmony Of The Gospels PamphletIf you want to know about Jesus of Nazareth whom Christian believe to be the promised Deliverer or Messiah of Israel and yes all mankind, a good place to start is in the books identified as the Gospels or Good News written by his followers soon after his life, death by crucifixion, and his resurrection from the dead.Once you read these, you will notice certain similarities and differences. You may wonder why are there four Gospels or accounts of Jesus' ministry and message?The colorful and well-designed pamphlet, The Gospels Side-by-Side, takes you step by step through these and many other facets of the Gospels. It provides an impressive amount of information in a variety of charts and list, which provide a clear comparison of the similarities and differences. One of my favorite charts compares how each writer details the miracles that Jesus performed.Some have been frustrated when they attempted to compare the Gospels to modern or ancient biographies without realizing that the unique style of the Gospels is based in their purpose as well as their historic framework.I am impressed with the clarity, conciseness and wealth of detail Rose Publishing packed into their The Gospels Side-by-Side pamphlet.

This is a very nicely done pamphlet of a synopsis by timeline of the Gospels of the New Testament. It is very brief with only the verse references and not the verses themselves. Still it would be very handy on a Kindle or any other mobile device for teaching Bible class.

I love reading. But hands-down, without a doubt, my favorite book to read is the Bible. So I'm always intrigued by any resource that can help me get more out of my time in the Scriptures. In "The Gospels Side-By-Side" by Rose Publishing, I found a goldmine. This short pamphlet is chockfull of graphics, charts, maps and historical background information that helped me see the bigger picture of the story of Jesus that the Gospel writers were conveying to us. It begins with the unique perspective of each Gospel writer, and launches us deeper into the Bible from there. In this book you will see things like:*

- * The events of Christ's life, and which Gospel tells particular events
- * The miracles of Jesus
- * The parables of Jesus
- * The chronological movements of Jesus
- * How Jesus celebrated Passovers during His public ministry
- * How these biblical biographies compare to other biographies of the era
- * Even the historical harmony of the Gospel message in the post-apostolic age

This should bring new life to any Bible student's reading time! I highly recommend you check out not only this pamphlet, but many of the other resources available at Rose Publishing.

I really like this pamphlet. It's very informative and the way it's listed is a real time saver. I recommend it for any serious Bible reader or student. It would also be a good investment for a baby "Christian". Lots of valuable information. Jolae
