Customer Reviews

Read this book on kindle and no doubt some old time favorites- extremely easy to read and follow directions. What I believe most would enjoy about this cook book is that the ones you would have in your recipe collection are here- nothing for the complicated huge ingredient shopping list- but easy enough and true enough to authentic restaurant favorites it would not keep you from saving 20.00 a plate at some white table cloth restaurant. having a husband from Sicily these recipes are must have and true Italian is not a huge complex procedure (fresh ingredients) and cook with LOVE> Recipes such as the picante are super fast and you will find the flavor so delicious no one would doubt you spent hours on the dish- we serve ours over pasta - the simple sauce is also one of

our favorites except with white mild fish instead of chicken. For a beginner Italian cook this book would be a real winner-for a cook that considers the kitchen for her family a major part of the home- I would not want to not have any of these recipes and be a good to collection.

Only 20 recipes but a very good deal since this is only 99 cents! It does have recipes for the classic Italian dishes and the recipes are very well written and simple to follow. Glad that I added this one to my collection because I enjoy helping out those with a true love for cooking and not just celebrity chefs!
