Customer Reviews

Let me start by saying I'm a busy working mom of two. I grew up eating Hamburger Helper and hot dogs, so I didn't learn to cook until I was an adult. My dad's had triple bypass and my mom's having gastric bypass, so we're trying to learn from their mistakes and eat not entirely vegetarian, but definitely a more plant-based diet. I'm sure all this sounds familiar to a lot of people! How to Cook Everything Vegetarian is exactly the cookbook I've been trying to find for a long time. It has the simple, everyday recipes that I sometimes need, combined with a LOT of wonderful vegetarian dishes from ordinary supermarket ingredients. How about Peanut Soup, Senegalese Style? Or Korean-Style Noodles in Cool Bean Broth (in less than 20 minutes for when the kids are whining for dinner) Mustard Cheese Fondue? This book is written in Bittman's typical 'theme and variations' style, with a basic recipe (like for waffles) and then a sidebar or list following the recipe that gives variations (like a list of things you can add to waffles for flavoring). The great thing about this is that it means you rarely have to reject a recipe because you don't have the exact ingredients, just go with a variant. The only quibble I have with it is, it's sometimes difficult to keep track of what you are supposed to sub out & sub back in when you have a crying toddler on your ankle. A basic cookbook should also walk you through basic techniques and ingredients. I was a little surprised to see the vegetables chapter was nearly 200 pages. Then I looked through it and realized a lot of that is guidance on how to select and prep the various vegetables.
