Has a lot of good recipes, many of which we have not yet had an opportunity to try yet. The zucchini bread recipe we made was very simple, easy to follow, and tasty. We made muffins with it, and not only were they delicious, but they froze well, and tasted just as good as fresh-baked when thawed. All of the recipes we have tried have come out the way the book says they will (except

where our oven is finicky and gets the product too dark, but that's our oven, not the recipe's fault! We're looking forward to a few more goodies this summer when zucchinis are in full-season availability.

A good way to help your children eat veggies and not know it. Also if you have too many zucchini it is a good way to use them as desert. Baked goods freeze well. many recipes to choose from. Muffins are a good start to see if you like the baked goods.

Several recipes in this book caught my eye right away but I settled on the Chocolate Chip Zucchini Bread because I had everything on hand and it was quick to make. It turned out great! My son's review: "This is amazing!" But I still can't wait to make the Carrot Zucchini Cake and the Pumpkin Oatmeal Zucchini Muffins. This book has some tasty recipes for this abundant veggie!

Absolutely wonderful recipes! Zucchini is such a versatile vegetable. I would have probably separated out the savory breads and muffins into another category, but that's just me!

I was disappointed. It is mostly about muffins. I was looking for main dishes and there was nothing of interest in this book. The title was misleading.

This recipe book has some great recipes! Can't wait to try them when our Zucchini is ready. Thank you for a great book!

Have used this little cookbook now that my garden has produced a bumper crop of zucchini. Lots of good recipes provided to try. Will enjoy using this book and making new zucchini faire.
