# An Overview Of Orthodox Canon Law (Orthodox, Theological Library)

## Synopsis

This Overview of the Canon Law of the Orthodox Catholic Church is a précis of the lessons on Canon Law taught to undergraduate students of the Theological School of the Aristotle University of Thessaloniki from 1968; and, after the division of the School into two Departments in 1982, to the undergraduates of the Department of Pastoral and Social Theology. With the passage of time, the content of the lessons underwent adaptations and improvements because of what had in the meantime become His Eminence Panteleimon's established ecclesiological and canonical views on certain matters of Canon Law. These changes were small but nonetheless of the essence. The present edition does not constitute a complete system of Canon Law, but, as its title declares, is an overview thereof.

Giving a tremendous overview of Orthodox Canon Law, His Eminence Metropolitan Panteleimon (Rodopoulos) presents the history and intricate aspects of Orthodox Canon Law in a clear and concise manner. His explanations offer to the reader an easier way to understand the pastoral nature of Orthodox Canon Law. I highly recommend this book!
