The Dear Dragon series is made up of several books that are easy readers. They use site vocabulary that is printed in the back of the book. It reminds me of the books I learned to read with. Although, this book is called "It's St. Patrick's Day Dear Dragon" there is really not much about that special day. The book deals with things that are green and about spring. The young boy and his pet dragon find green traffic lights, a new green flower sprouting, fly a green kite decorated with a picture of the dragon, eat green cupcakes among other things. The only tie in to St. Patrick's Day is that they buy a shamrock plant for the mother and the father is wearing a shamrock pin which he gives to the boy. The book is still a good one to help beginning readers regardless of the lack of St. Patrick's information. These Beginning-to-Read books capture the imaginations of beginning readers and help them on their way to independent reading. They could also be read aloud to young children who are not able to read yet. A great addition to a family library or a primary classroom. Thank you to Netgalley and Norwood House Press for the opportunity to read and review this book.

Books from Hillert are great books for beginning readers. The children love them and want to read them. Ready great reads.
