Living Well And Dying Faithfully: Christian Practices For End-of-Life Care

Synopsis

Living Well and Dying Faithfully explores how Christian practices â• love, prayer, lament, compassion, and so on â• can contribute to the process of dying well. Working on the premise that one dies the way one lives, the book is unique in its constructive dialogue between theology and medicine as offering two complementary modes of care.

Customer Reviews

I found this book to be a very insightful and practical read, good for those who are seeking to learn or to remember the importance of pastoral theology for those who are grieving. The secret...live well.

I've purchased this to read and reread in my work as a chaplain.

Good text for Ministry of Chaplain
